TRADE SCHOOLS

# PLUMBING & ELECTRICAL TRADE QUALIFICATION

## ABOUT THE QUALIFICATIONS

At NewGen Trade Schools, our mission is to bridge the skills shortages and gaps of skilled trades people by preparing 15–19-year-olds for industry-related demands, in a safe and well monitored environment.

This, one-of-a-kind, dream trade school, focuses on delivering a unique combination of trade and academical skills, internationally recognised qualifications and work experience to our students as part of our unique combination of learning, working and mentoring program.

**The focus of this route is to prepare every student to be employable or start their own business on qualification.**

## WHY CHOOSE TO COMPLETE A TRADE QUALIFICATION

A Trade qualification is highly sought after today due to the shortage of these skills in South Africa and Internationally. Choosing to obtain a Trade qualification is a valuable Life Choice.

Our qualified Trades persons are able to begin their chosen career path in Grade 9 at the early age of 15, obtaining their qualification along with a Business Management certificate and Red Seal (equivalent of Matric) in the same time as it would have taken to achieve a matric pass, and are ready to establish their own trade related business with unlimited earning potential, or work overseas as a very sought after trades person.

## ADMISSION REQUIREMENTS

**Students should be age 15 -19 years old and have completed Grade 9.**

# TECHNICAL REQUIREMENTS PROGRAMME DELIVERY

Our platform is fully technology-driven, therefore students will need a reliable PC/laptop/tablet or regular access to one. A stable internet connection with sufficient data to access online resources and participate in programme activities will be provided. You will also get access to a Microsoft (MS) Office 365 account, giving you access to the full MS suite along with numerous resources during the program that will assist you in completing tasks and assignments.

## PLUMBING AS A TRADE

After qualifying in this course you will be able to integrate your knowledge, understanding and competencies related to occupational health and safety, National Building Regulations and industry codes of practice to perform a range of plumbing activities.

You will be able to:

- ✓ Apply understanding of the functioning of plumbing systems to install, test and maintain them in a building environment.
- ✓ Apply fault finding techniques to diagnose and repair installed plumbing systems.
- ✓ Communicate in verbal and written forms with peers, supervisors and other relevant role players.
- ✓ Identify and solve problems with practical mathematical applications.

On completion, learners will be able to integrate their knowledge, understanding and competencies related to occupational health and safety, National Building Regulations, and industry codes of practice to perform a range of plumbing activities.

## ELECTRICIAN AS A TRADE

After qualifying in this course you will work effectively within various industries, making use of electrical engineering knowledge and skills to meet the challenges of such an environment.

You will be able to:

- ✓ Plan and prepare work site, equipment, tools, consumables and materials for electrical activities and operations.
- ✓ Install, wire and connect electrical equipment and control systems.
- ✓ Test and inspect electrical equipment, control systems and installations.
- ✓ Commission control systems and installations.
- ✓ Maintain and repair electrical equipment, control systems and installations.

**As a Qualified Trades person, you will also be able to maintain and support the various policies and procedures related to the safety, health, environment and quality systems that govern their workplace.**

**Furthermore, with the inclusion of the Business and Management qualification, you will be provided the theoretical and practical skills to manage or create your own business.**

**PLUMBING AND ELECTRICAL**

Delivery and programme management:

**Three (3) months: theoretical and practical learning**

The student will spend the three months fulltime at the campus:

- ✓ Theory and practical learning for the relevant trade
- ✓ Working through the first two Business and Management Modules
- ✓ Practical training on necessary skills in the workplace

**Three (3) months: work integrated learning in preparation for the apprenticeship**

The student will be returning to the campus once a fortnight. In this time the student will receive:

- ✓ A progress check on trade related skills
- ✓ Continuous upskilling in competences related to the workplace
- ✓ Review of progress in the Business and Management course
- ✓ Regular check-ins with the wellness coach for each student
- ✓ Confirmation of placement of their apprenticeship

**Thirty (30) months: apprenticeship**

Students are placed by NewGen Trade Schools with a vetted and approved partner in the related trade in order to undergo the required practical experience prior to undertaking the Trade Test. Regular inspection visits to the partners and sites will be undertaken to ensure that our students are being looked after and being applied in a suitable manner to maximise their learning experience.

The student will be returning to campus monthly. In this time the student will receive:

- ✓ A progress check on trade related skills
- ✓ Continuous upskilling in competences related to the workplace
- ✓ Testing of skills learned and practised in the field
- ✓ Review of progress in the Business and Management course
- ✓ Regular check-ins with the wellness coach for each student
- ✓ Confirmation of final preparation of trade test week and trade test date

**ASSESSMENT TYPE:  
PLUMBING AND ELECTRICAL**

These courses culminate in a trade test at the end of the three-year period. Students return to campus for 2 weeks of trade test preparation prior to undergoing their final Trade Test. The student will receive a Section 26 D, commonly known as The Red Seal which is internationally recognised.

**BUSINESS AND MANAGEMENT  
NQF 4 LEVEL 3 (MATRIC EQUIVALENCE)**

This course consists of 9 Modules P.O.E Including 9 Assignments

## QUALIFICATION EQUIVALENCE PROGRAMME ACCREDITATION

The International Access Qualification (IAQ) will enable you to pursue certificates, diplomas, and degree programmes at multiple academic institutions in South Africa and abroad. This ATHE Certificate in Business & Management (NQF4) is designed to provide various progression options to other higher institutions, first-year university or Level 4 (NQF5) ATHE qualifications.

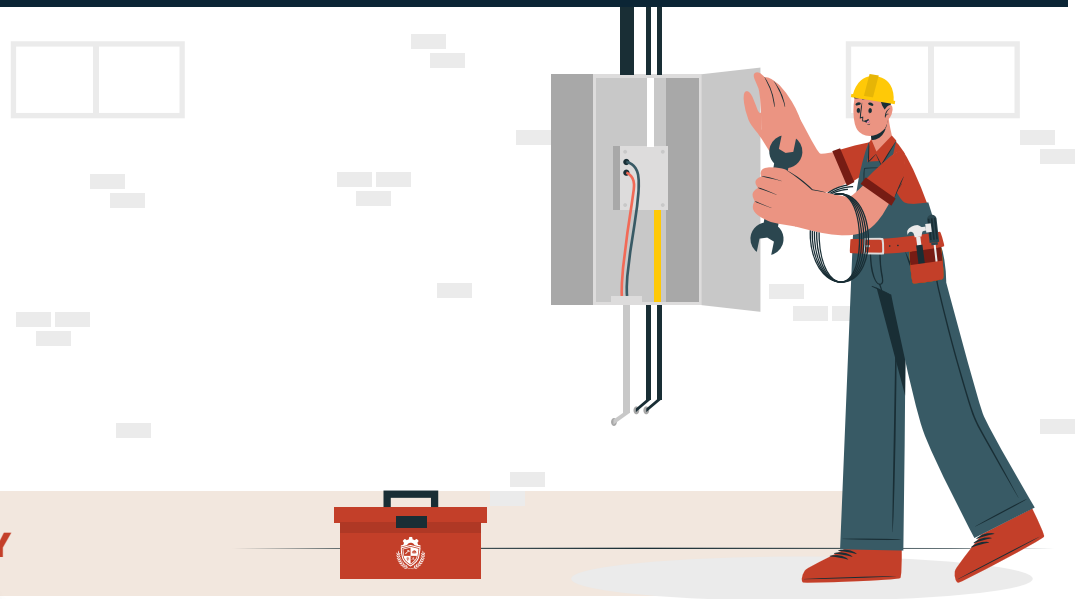

## PROGRAMME ACCREDITATION

The International Access Qualification (IAQ) will enable you to pursue certificates, diplomas, and degree programmes at multiple academic institutions in South Africa and abroad. This ATHE Certificate in Business & Management (NQF4) is designed to provide various progression options to other higher institutions, first-year university or Level 4 (NQF5) ATHE qualifications. The qualification is fully accredited by the Awards for Training and Higher Education (ATHE) and is regulated by the Office of Qualifications and Examinations Regulation (Ofqual).

## PROGRAMME DELIVERY

**At NewGen Trade Schools our students will complete the first two modules on a fulltime basis, while completing their trade theory and practical learning modules at the trade school. The remaining modules will be completed on a part-time basis over the next 2 years.**

## COURSE SUMMARY

### Business Environment

In this unit students will gain knowledge and understanding of the environment in which organisations operate. This will support understanding of the different and often complex contexts in which organisations function.

### How Businesses and Organisations Work

This unit will provide an overview of key aspects of business. Students will develop knowledge and understanding of business objectives and structure, customer service, and resource requirements.

### Business Communication

To develop knowledge, skills and understanding of communication theory and the importance of effective communication in business.

## Working in Teams

This unit will provide an overview of key aspects of working with other people. Students will gain knowledge and understanding of teams and team roles. There is also an opportunity for students to develop their own employability skills.

## Market Research

To develop knowledge and understanding of key marketing principles and practices with a focus on market research. Students will apply the principles to complete a market research project. They will also develop their research skills by applying these to the completion of the chosen market research project.

## Introduction to Financial Controls in Business

Students will develop knowledge and understanding of budgets, budgetary control, costings, cash flow, and basic ratio analysis. They will have the opportunity to construct simple budgets and cashflows.

## Leading and Managing People

Students will develop knowledge and understanding of the concepts, principles and skills needed to lead and manage people.

## Principles of Marketing and Sales

Students will develop knowledge and understanding of the principles of marketing and sales. Students will also begin to gain the skills required to undertake marketing activities. Students will have the opportunity to apply the principles and use the skills to complete a marketing mix plan.

## Human Resources

Students will develop knowledge and understanding of the HR function including recruitment, selection, retention, monitoring and development of employees.

## CAREER OPPORTUNITIES

Qualified Trades people are in high demand in South Africa and Internationally.

Our qualified students can:

- ✓ Be employed by one of our Trade Partners
- ✓ Establish their own Business in their Trade
- ✓ Seek International employment

There are many opportunities for qualified trades people without being hindered by the restrictions of Corporate or Government employers who are bound to comply with many limiting criteria. Their futures are bright and promising and can be moved anywhere in the World.

THE FUTURE OF WORK IS IN YOUR HANDS
